

Oslo, June 2005

empolis Scandinavia changes name to Ovitas AS

We are pleased to announce that empolis Scandinavia changes company name to Ovitas AS.

The profile of Ovitas AS is the same as that of empolis Scandinavia. Taking advantage of the empolis product range, the company offers leading knowledge management solutions, intelligent search engines, XML-based document and content life cycle management systems, with a full scale of related services.

In order to better serve our international customers, Ovitas AS now has forged a strategic alliance with Ovitas North America and Ovitas Hungary. These are also former empolis subsidiaries in the U.S. and Hungary, which have completed a similar reorganization as empolis Scandinavia did last year.

The changes of name will not affect the customer relationships or contracts with third parties. Ovitas will continue to be responsible for the supply, local support and other services related to empolis products and solutions. empolis GmbH will still be responsible for continued development and quality of the products and solutions, as well as third line support. If you have any questions, please do not hesitate to contact us.

Yours Sincerely
